COLBEN MAN (RAIN JKT)

Die sehr leichte, funktionelle 2,5-Lagen Regenjacke COLBEN mit Kapuze und wasserdichter, winddichter und atmungsaktiver AQUASHIELD® Membrane ist aus 2-Wege Stretchmaterial gefertigt, für optimale Beweglichkeit. Die Wassersäule von 10.000 mm garantiert einen guten Schutz vor Regen. Zusätzlich verhindern komplett vertapte Nähte und ein wasserdichter Front- Reißverschluss das Eindringen von Nässe und Kälte. Die hohe Atmungsaktivität von 10.000 g/m²/24h trägt Feuchtigkeit schnell nach außen, für konstant angenehmen Klimakomfort. Durch das leichte Gewicht und das geringe Packmaß lässt sich die Jacke platzsparend in der Trikottasche oder im Rucksack verstauen. Die Brusttasche ist ebenfalls mit wasserdichtem Reißverschluss ausgerüstet. Reflektierende Elemente sorgen für optimale Sichtbarkeit an grauen Regentagen.
